

Alondra

Smart Insurance Distribution
by NTT DATA

Digital distribution platform for insurance, bringing system integration and improved agility and control over distribution, thus providing a greater degree of self-management.

a syntphony product

What is Alondra?

Based on Rapid Development technology, **Alondra** optimizes system integration processes, to ensure **maximum connectivity**, speed up development timelines and offer greater control over data and fees. This is achieved utilizing **robust, reliable and scalable architecture** composed by 19 modules that fulfill all distribution needs.

Value proposition

Besides streamlining financial control and reducing development times, its design guarantees:

- **Maximum adaptability**, thanks to its high customization level.
- **Simple and selfmanaged distribution**, which allays third-party agencies.
- **Reduced timeto-market** when launching new products.
- Enhanced **commission control**.
- **Excellent transaction and data control** for auditing purposes.

Alondra,

a digital distribution platform for bancassurance, based on Rapid Development

Benefits

The definitive platform for digital distribution.

- If you are seeking to **improve your internal systems connectivity and expand their functionalities**.
- If you wish to **improve time-to-market** when launching new products through your distribution network.
- If you need to **launch distribution agreements** with one or several partners, ensuring easy information access whilst guaranteeing data security and commission control.
- If you need a higher level of **transparency and control** with regard to commission payment.

Main characteristics

One platform. Wide-ranging capabilities. 3 different access portals.

01

Customer portal:

It enables access and advisory services for all relevant information in a simple and straightforward manner, providing customers with a high degree of self-sufficiency.

- It allows access to documents, policies and receipts.

Admin portal:

Securely manage the platform and your distribution network.

- Distribution Network reports.
- Maximum frameworking: expand, limit or restrict functionalities.
- Platform usage analysis using API Manager
- Extend platform functionalities by connecting with third parties or installing plug&plays.

03

Broker portal:

All you need to manage your office.

- Claims follow-up.
- Commission Management and report generation.
- Quote and issue new policies.
- Access customer Information.

NTT DATA, your insurance partner

As part of the NTT DATA group – one of the top ten companies in IT services worldwide – **everis** has over **20 years of expertise** and is recognized as one of the main agents in the **digital transformation of the Banking and Insurance industries**.

All in all, we are over 5000 experts sharing our deep knowledge **about business strategy, design, implementation and management of technological solutions** for financial companies around the world.

Alondra is offered by everis Syntphony, the platform for orchestrating product innovation and commercialization within everis. Syntphony leverages the talent and knowledge of everis professionals and our experience in delivering integrated, solutions that maximize the synergies of the products and technologies.

A photograph of an orchestra performing in a grand, ornate concert hall. The hall features a high, vaulted ceiling with intricate architectural details and a large, multi-tiered chandelier. The orchestra is seated on a raised platform, and the foreground shows rows of empty, gold-colored seats. A semi-transparent dark blue box is overlaid on the right side of the image, containing text.

NTT DATA syntphony

NTT DATA Syntphony is NTT DATA's product strategy. Our goal is to orchestrate the synergies and transform them into a harmonious solution for our clients and partners. The talent and global business knowledge of the NTT DATA team and its experience in the integration of end-to-end solutions, come together in the Syntphony platform. Along with third-party solutions and alliances, we create innovative products that reach their full potential when combined. The perfect music for each listener.

Benefits

Experts in technology and industry knowledge

Our knowledge and experience have been focused on creating innovative products which foresee future needs, under the baton of the best conductors.

Better time to market

The readiness of our products along with everis' platform-driven integration and orchestration, allow optimal implementation rhythm.

Global reach

At Syntphony, we seek to achieve the same global vision that everis, as an NTT DATA group company, applies to the rest of its services. We can adapt to many different keys.

Synergies and maximum cost efficiency

The centralized management of products inside Syntphony creates synergies and allow us to combine them optimally like notes in a chord, so maximising performance and minimizing costs for our clients.

Excellence

We aim to excel in all aspects of product practice, from ideation and construction, to all the fields of commercialization: security, resilience, scalability, regulations, certificates, roadmaps... We seek harmony within the ecosystem.

NTT DATA: integrator and service provider

everis' expertise in technological consulting simplifies the integration of its own products, as well as offering complimentary support service for levels 1 and 2, to make our song richer and better.

At Syntphony we create innovative products that take advantage of the synergies that come from all of them.

Ecosystem

The Syntphony platform products have the ability to integrate and create synergies with each other, providing efficient solutions, in tune with business needs.

End-to-end solutions, come together on the Syntphony platform.
